

American Journal of CLINICAL PATHOLOGY

TECHNICAL SECTION

EDITOR-IN-CHIEF

R. A. KILDUFFE, Atlantic City Hospital, Atlantic City, New Jersey

EDITOR OF TECHNICAL SUPPLEMENT

W. S. THOMAS, M.D., 435 East Henrietta Road, Rochester, N. Y.

ASSOCIATES

M. BODANSKY, M.D., John Sealy Hospital and Department of Pathological
Chemistry, University of Texas, Galveston, Texas

I. DAVIDSOHN, M.D., Mt. Sinai Hospital, Chicago, Ill.

KANO IKEDA, M.D., Chas. T. Miller Hospital, St. Paul, Minn.

CONTENTS

NUMBER 1, JANUARY, 1939

A Rapid but Precise Gravimetric Method for Serum Protein and Serum Albumin. EVALYN BARRETT.....	3
A New Deproteinizing Reagent. BENJAMIN KRAUTMAN.....	9
Hortega's Silver Impregnation Methods. WM. M. GERMAN.....	13
The Isolation and in Vitro Testing of Pathogenic Types of Non-exotoxic Streptococci. GEORGE H. CHAPMAN, MERRITT H. STILES, AND CONRAD BERENS.....	20
Recognition of C. Welchii in Wounds. C. L. ROBINSON AND W. D. STOVALL.....	27
A Spring Clip for the Blood Counting Chamber. FREDERIC H. WILSON..	32
Blood Transfusion Equipment and Some Reaction Prevention Factors. PAUL B. PATTON.....	34
Annotations, Minor Contributions, Queries:	
A Simplified Method for the Determination of Blood Urea. FABRY L. HAWK.....	40
A New Stain for Opsonocytophagic Tests. H. E. COPE AND HELEN JAFFE.....	41
A Suggested Container for Aseptic Collection of Chancre Fluid, Pus, etc. G. E. CULBERTSON.....	41
A Simple and Efficient Method for Closing Blood Pipettes. E. E. MYERS.....	42

NUMBER 2, MARCH, 1939

Hortega's Silver Impregnation Stains. WM. M. GERMAN.....	47
Rapid Heating of Serum for the Slide Tests for Syphilis. Preliminary Report. BENJAMIN S. KLINE AND DOROTHY K. LLOYD.....	55
The Determination of Blood Glucose with 2,6 Dichlorophenolindophenol. E. M. ABRAHAMSON.....	60
Simple Apparatus and Technique for Gas Analysis. SAMUEL BERG.....	64
The Survival of Microorganisms in Fixed and Stained Preparations. HARRY E. MORTON.....	68
A Note on the Use of "Double Poured" Blood Plates in the Examination of Throat and Nose Cultures for Hemolytic Streptococci. C. A. PERRY AND ELIZABETH PETRAN.....	70
Azocarmine Stain for Bone Marrow. MARTHA B. RALSTON AND ARTHUR H. WELLS.....	72

An Efficient Paraffin Bath. C. W. MAYNARD.....	73
Hematological Standards. FRED BOERNER.....	75
Toxicology in a General Hospital. A Note Concerning the Published Technique of Dale G. Friend. ALEXANDER O. GETTLER.....	76
Comparative Study of the Mazzini Flocculation and the Kline Exclusion Test. ALFRED S. GIORDANO, AGATHA M. WILHELM, AND BONITA G. CARLSON.....	80
Published Procedures Recommended for Trial:	
A Method for the Dark Field Examination of Pus for Spirochaeta Pallida. LEON FRIEDMAN.....	83
Artificial Concentration of Test Serums in Blood Grouping. M. C. TERRY.....	83
A Methylene Blue Stain for Sections of Formalin-Fixed Marrow. HAROLD GORDON.....	83
The Preparation of Plaster of Paris Embedding Boxes. A. N. SOL- BERG.....	84
The Detection of Acetone and Acetoacetic Acid in Urine. JONAS KAMLET.....	84
Trichinosis in Cleveland. C. H. EVANS, JR.....	85
Annotations, Minor Contributions, Queries:	
Method for Amylase Determination.....	85
Demonstration of Trichinae in Muscle.....	86
Simple Method for Holding Sedimentation Tubes. E. E. MYERS....	86
New pH Slide Comparator.....	87
Correction. E. E. MYERS.....	87

NUMBER 3, MAY, 1939

Technical, Mechanical, and Interpretative Aspects of Basal Metabolism. JESSIE K. LEX.....	91
A Modification of The Kramer and Tisdall Method for Determining Po- tassium in The Blood Serum. ROGER S. HUBBARD AND HELEN R. GARBUIT.....	119
A Linear Relation for Calculating Blood Sugar by the Timed Ferrocyanide Method. E. M. ABRAHAMSON.....	123
An Accurate Pipette Calibrator And Microaspirator. EDWIN E. OSGOOD, AUSTIN H. OSGOOD, AND EDWARD S. WEST.....	128
A Home-Made Electric Saw. I. MILTON WISE.....	133
A Permanent Method of Labelling Microscopic Slides. HAMILTON R. FISHBACK AND AVIS GREGERSON.....	134
Published Procedures Recommended for Trial:	
Determination of Hippuric Acid in Urine. T. E. WEICHELBAUM AND J. G. PROBSTEIN.....	136
Making of Gold Solution for Cerebrospinal Fluid Tests. B. S. LEVINE.	137

CONTENTS

V

A New Spinal Fluid Reaction for the Diagnosis of Syphilis. K. MEZEY	137
Sulfocyanate as a Treatment for Mange in Dogs and Other Laboratory Animals. E. B. CARMICHAEL	138
Annotations, Minor Contributions, Queries:	
A Pathogenic Agent in Acute Rheumatic Fever	138
Cancer Tests	139
Photographic Technic	139

NUMBER 4, JULY, 1939

Technique of Blood Grouping Tests Preliminary to Blood Transfusions. A. S. WIENER	145
Determination of Alcohol in Tissue and Body Fluids. H. LEVINE AND M. BODANSKY	159
The Medium of Wilson and Blair for the Determination of Clostridium Welchii. LUTHER THOMPSON	173
A Method for the Examination of the Cellular Elements of Body Fluids. JOHN R. SCHENKEN AND WILLIAM M. MCCORD	176
Laboratory Diagnostic Index. ARTHUR H. WELLS	179
Annotations, Minor Contributions, Queries:	
Blood Amylase Determinations	180
A New Method of Making Smears. MICHAEL A. OGDEN	183
Correction. DR. FABRY L. HAWK	183

NUMBER 5, SEPTEMBER, 1939

Technique of the Prothrombin Time Determination. THOMAS B. MAGATH	187
A New Frozen Section Method for the Preparation of Permanent Frozen Sections of Loose Texture Tissues. ARAM A. KRAJIAN	189
Procedures Recommended for Trial:	
Photometric (Sheard-Sanford) Determination of Blood Cyanate, Blood Sulfapyridine, Urine Sugar and Total Proteins in Spinal Fluid. KANO IKEDA AND ALICE HANSON	192

NUMBER 6, NOVEMBER, 1939

Index to Technical Section	199
